# OSHA 10-Hour Training Course

GFA's OSHA 10-Hour Construction Industry Training Course is led by one of our OSHA certified trainers and is intended for construction workers and supervisors, or anyone involved in the construction industry. This course will provide instruction on OSHA regulations and requirements as they apply to the industry and teaches safety awareness, which assists workers in recognizing and reducing the risks of construction site and industrial hazards. Upon successful completion of this course, the successful participants will receive their Department Of Labor (DOL) OSHA 10-hour wallet card & completion certificate.

## This Course Will Provide An Introduction To OSHA & Safety Training For:

- ★ Struck and Caught Hazards
- ★ Electrical Safety
- ★ Fall Protection
- ★ Ladder Safety
- ★ Scaffold Safety
- ★ Materials Handling
- ★ Crane Safety
- ★ Personal Protective Equipment (PPE)
- ★ Work-Zone Safety
- ★ Excavation Safety

Founded in 1988, GFA International, Inc. (GFA) is a full-service Engineering and Geological consulting organization providing Environmental, Geotechnical, Construction Materials Testing, Threshold and Special Inspections services, across a broad spectrum of industries. GFA has offices strategically located to service our clients throughout the State of Florida.
