LABORATORY & FIELD MATERIALS TESTING

GFA has the personnel, equipment, and systems in place to perform construction materials testing for projects of any size. Our team of engineering technicians are trained, certified, and experienced in providing testing and observation of various work elements during construction.

GFA understands the need for increased efficiency and provides accurate and reliable test results that our clients can count on. We can also bring our services to remote sites with our fleet of self-sufficient mobile soils and concrete laboratories.

- GFA's laboratories are Certified & Accredited by the FDOT, CMEC, and U.S. Army Corps of Engineers.
- GFA's Field Technicians are ACI and CTQP Trained & Certified.
- 24-Hour Availability.
- GFA has the **ONLY** US Army Corps of Engineers (USACE) Validated Laboratory in the State of Florida capable of performing concrete permeability testing per USACE test method CRD-C48-92.

GFA PROVIDES THE FOLLOWING CONSTRUCTION MATERIALS TESTING AND NON-DESTRUCTIVE TESTING SERVICES:

- ★ Soil Testing
- ★ Concrete & Aggregate Testing
- ★ Asphalt Testing
- ★ Soil-Cement Testing
- ★ Asphalt Monitoring
- ★ Construction Monitoring & Inspection

Founded in 1988, GFA International, Inc. (GFA) is a full-service Engineering and Geological consulting organization providing Environmental, Geotechnical, Construction Materials Testing, Threshold and Special Inspections services, across a broad spectrum of industries. GFA has offices strategically located to service our clients throughout the State of Florida. For over 29 years, GFA has successfully built our state-wide reputation for superior service, trustworthy business management, and strict attention to health, safety and innovative engineering.
