

LABORATORY TESTING

GFA has the personnel, equipment, and qualifications in place to perform concrete testing for projects of any size. Our team of laboratory technicians are trained, certified, and experienced in providing testing for these materials.

GFA understands the need for increased efficiency and provides accurate and reliable test results that our clients can count on.

GFA PROVIDES THE FOLLOWING SPECIALTY CONCRETE TESTING SERVICES:

AASHTO T277 Rapid Determination of Chloride Permeability

AASHTO T358 Surface Resistivity of Concrete

ASTM C157 Length Change of Mortar and Concrete

ASTM C490 Length Change of Hardened Cement Paste

CRD C48 Water Permeability of Concrete

CRD C114 Freezing and Thawing of Concrete

Contact us to discuss your requirement and special needs.

(239) 489-2443

➤ GFA's Laboratories are Certified & Accredited by the FDOT, CMEC, and US Army Corps of Engineers.

➤ GFA's Field Technicians are ACI and CTQP Trained & Certified.

➤ GFA has the ONLY US Army Corps of Engineers (USACE) Validated Laboratory in the State of Florida capable of performing Freezing/Thawing and Wetting/Drying of Rock as well as Aggregate Durability Index and Sand Equivalent testing for both SFWMD and USACE projects.
